TECHNICAL SKILLS

- Programming Languages : C, C++,JAVA.
- Tools : LabVIEW, HFSS, MATLAB.

PROJECT

- **Title** : **Cognitive Radio Spacing**
- **Description** : In order to efficiently utilize the electromagnetic spectrum the "Cognitive Radio"(CR) senses a wide range of frequency bands and makes use of the temporally unoccupied bands for other useful wireless transmissions.
- **Title** : **System to monitor the patients body temperature**
- **Description** : The proposed approach consists of a sensors which measures body temperature. The readings from the sensor are sent to the PC where it can be viewed on the serial monitor. The data is processed and the necessary alert mechanisms activated.
- **Title** : **Earless Earphones**
- **Description** : There is a direct nerve connection between the jaws and eardrum of our ear. We can understand and hear the information or audio signal that has been produced from the mobile phone through this nerve.
